Season's Greetings

The Lynch Creek Farm staff is gearing up for yet another exciting holiday season! Our mission has always been to delight our loyal customers and their gift recipients by handcrafting some of the most elegant evergreen products on the market. This year we've added many new designs to our offerings, including several featured in this brochure. We are excited to share these new photos with you! So, find a comfy chair, sit back and peruse our colorful brochure. We look forward to being a part of your holiday tradition!

OUR STORY

Our family-owned business, located in the Pacific Northwest, was established in 1980. We have grown from a small farm operation, offering a few flowers and vegetables at the local farmers' market on weekends, to a full-blown year-round business. We still sell flowers locally all summer long; then we ship fresh evergreens in the late fall and early winter throughout the United States.

ECO FRIENDLY FARM

Our handcrafted products are made with only the freshest noble fir, Western red and incense cedar, juniper, and white pine. Our boughs come from the foothills of the Olympic and Cascade mountains. Trees are not cut down, just trimmed to ensure a lifetime of production. This helps maintain a natural forest for wildlife and provides a sustainable ecosystem for future generations. Along with other decorations like our fabulous hand-tied bows, we often incorporate natural greenery like salal leaves and holly into our designs.

"The finest wreaths you've ever seen!"
